Edible Forest Garden Work Bee

Sunday May 7th, 9am - noon @ the forest garden

Everyone is welcome, whether you have gardening experience or not. This is a great place to learn from each other. And if you are not into the planting, I'm sure we could use your creative insights and ideas in other ways (making signs, beautification ideas, design, making lemonade for the hard workers, etc). If you can't make it to this work bee but want to get involved, please reach out.

EMERCA AGM and Celebration

Thursday June 1st at 7:00pm

In what this writer is calling the greatest feat accomplished by any non-profit in Eden Mills, EMERCA has voted to dissolve as they have completed their mission of saving all of the natural land in Eden Mills. Come to the final AGM to hear about EMERCA's accomplishments over the years and to celebrate the donation of land from Anna and Charles Simon to RARE.

Annual Community Yard Sale

Saturday, June 10th, 8am - noon @ the hall or your driveway

We're revitalizing an old annual tradition at the hall. You're welcome to rent a table or two (by donation - we suggest \$5-10), in the hall parking lot, or you're welcome to take advantage of the increase in traffic through the village and set up in your own driveway. We won't be able to dispose of any leftovers so please plan to take away any unsold items at the end of the sale.

We may be having a coffee + muffin fundraiser at the hall as well, if you're interested in volunteering for all or part of the morning, please let us know by responding to this email.

EMCC Trivia

What is The Carbon Neutral initiative? Is the hall carbon neutral?

Eden Mills made a commitment several years ago to become a Carbon Neutral village. We believe - not sure - the hall is the only heritage building in Canada to have achieved the goal of producing more energy than it consumes. Contributing to this: the rooftop solar panels, use of high efficiency heat pumps, a heat-recovery ventilation system and a significant investment in insulation and making the building as air-tight as practical. The downstairs hallway has a display that provides greater detail on the work involved and the specific outcomes - have a look! If you want further info, contact your favorite board member to be put in touch with the founding members of the Carbon Neutral Initiative.
